**NOTICE OF TRAFFIC SIGNAL DECOMMISSION
FALL HILL AVE & GERMANIA ST
WEEK OF JUNE 26**

On January 10, 2017 the City Council approved a staff recommendation to decommission, and methodically remove from service, five non-warranted traffic signals within the City. Four of the five locations have been successfully decommissioned and the decommissioning of the remaining location, Fall Hill Ave & Germania St, is scheduled to begin the week of June 26, 2017. City Council directed that staff delay the signal decommission at this location until the school year has concluded.

Decommission of the subject intersection will include various roadway and signage improvements, at, and near this intersection. New asphalt will be placed on Fall Hill Ave through the intersection and multiple signs and pavement markings will be added to provide proper traffic control and support pedestrian usage in lieu of the traffic signal. Immediately following the roadway improvements and signage additions, the signal will be placed in flash mode for seven days. Upon conclusion of the seven day flash period, the signals will be covered, and have the electrical power switched off. The signals will remain in this condition for an extended period of time before any equipment is removed or permanently disabled.
